

## Environmental Policy Statement ISO 14001:2015

Cade Roofing and Building Services Ltd is a leading, local contractor whose core business processes are roofing and scaffolding processes. We acknowledge the importance of being responsible, sustainable and ethical in order to meet the needs of the present and leave a better environment for future generations. We believe this can be achieved through the skills and knowledge that our employees have and the techniques and the materials that we use. Our strategies and operations promote the best environmental practices because of the business and ethical benefits that this brings. Cade Roofing and Building Services Ltd directors, employees and managers are proud to support this policy. We are accredited with ISO 14001:2015 and will uphold its requirements and are committed at all times to support its cause by ensuring the protection of the environment and continual environmental improvement.

Through this statement, Cade Roofing and Building Services Ltd, will:

- We will always prevent pollution by ensuring that the risk is controlled from our acts or omissions.
- Comply with all applicable legal requirements and any other requirements placed on us.
- Specially protect the environment from scaffolding, roofing, and transportation processes.
- Set and communicate clear quantifiable environmental objectives.
- We will reduce, reuse and recycle our materials whenever possible to prevent landfill.
- Take all reasonable measures to prevent pollution from our scaffolding and roofing processes.
- Provide all staff with training to raise their awareness of environmental and sustainability issues;
- Reduce our vehicle emissions through good management and maintenance of our company vehicles.
- Reduce the environmental impact of Cade Roofing and Building Services Ltd through reducing, reusing and recycling materials to reduce our impact on the environment.
- Minimise environmental impact, so far as reasonably practicable, by implementing our cradle to grave (life-cycle) policy with regards to our scaffold and roofing supplies and recycle all waste.
- Ensure that our scaffold board suppliers sustainably source materials in line with the requirements of their PCFC and FSC certification.
- Protect the environment during our scaffolding and roofing processes.
- Put in place measures to promote reduction, re-use and recycling of building waste;
- Implement the Cade Roofing and Building Services Ltd Sustainable Procurement Policy to encourage improvements in the environmental performance of suppliers, goods and services;
- Engage with our customers to promote environmental best practice and seek collaborative opportunities in order to facilitate developments with environmental protection.
- In line with our ISO 14001 standard, we will set and monitor our environmental objectives.
- Ensure that this policy is communicated to all our employees, clients and subcontractors.
- Encourage companies, who operate in partnership with us, to adopt a policy in accordance with the commitments laid out within this Policy.
